Washington, DC 20554

**Re: Challenge to Windstream Corporation ("Windstream") Request for Connect America Fund Phase I Support (Second Round) in Iowa State  
WC Docket 10-90**

Dear Ms. Dortch:

I am the Chief Executive Officer for SpeedConnect LLC ("SpeedConnect"), a provider of internet and VoIP services in various markets throughout Iowa. This letter is in response to the Federal Communications Commission ("FCC") issuance of a Report and Order<sup>1</sup> ("Order") and Public Notice<sup>2</sup> ("Public Notice") providing a process to challenge providers who requested funding for the second round of Connect America Phase I for census blocks they have deemed as unserved but which in fact are being served by SpeedConnect.

Windstream has requested such funding for the census blocks listed in Exhibit A hereto. However, such areas are already being actively served by SpeedConnect who provides internet and VoIP service to subscribers in these census blocks through terrestrial fixed wireless-licensed networks. Such services are provided at speeds as high as 10 Mbps downstream and 1.5 Mbps upstream, which are well in excess of the required 3 Mbps downstream and 768 kbps upstream levels needed to challenge funding to competitive providers. As evidence of such service, SpeedConnect has attached the following:

Exhibit B - A map of SpeedConnect's market showing the specific location of various subscribers within such census blocks.<sup>3</sup>

<sup>1</sup> *Connect America Fund*, WC Docket No. 10-90, Report and Order, 28 FCC Red 7766 (2013); Order on Reconsideration, 28 FCC Red 10488 (2013).

<sup>2</sup> Wireline Competition Bureau Publishes Census Blocks, And Commences Challenge Process, for Second Round of Connect America Phase I, *Public Notice*, DA 13-1832 (rel. Aug. 28, 2013).

<sup>3</sup> SpeedConnect can also provide at FCC request a Geographical Service Area ("GSA") map showing the extent of its services in this market, which was filed by request of the Commission pursuant to Section 27.14(o) of the Commission's Rules mandating that Broadband Radio Service ("BRS") and Educational Broadband Radio Service ("EBRS") licensees make a showing of "substantial service" in their GSAs by May 1, 2011. As noted in the Order, if a service provider purports to serve "the entire area with broadband and offers VoIP, it would be reasonable to expect that some of the provider's customers would opt to use that provider's VoIP service." Order at fn. 68.

Ms. Marlene H. Dortch

Page 2

Exhibit C - A list of subscriber addresses currently served by SpeedConnect, as well as a sampling of invoices sent to such subscribers. Due to the high number of subscribers served and the large attachment that would have resulted in including this information, SpeedConnect did not include a separate invoice for each census block. However, such information can be provided upon FCC request.

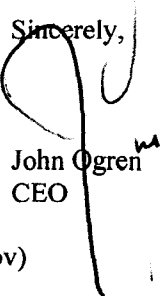

Exhibit D - An example of the marketing information used to attract new customers listing SpeedConnect services available and prices offered.

In addition, the FCC already has data on file showing service by SpeedConnect to thousands of customers in these areas at such service speeds through its submission of its bi-annual Form 477 report, the most recent filed on August 29, 2013 (OMB number 3060-0816).

Accordingly, WindStream's request for funding in these census blocks should be denied. Such funds are intended to bring new service to unserved areas and not overbuild existing systems which did not receive government funds to deploy service. SpeedConnect would be irreparably harmed and be unable to compete if such overbuilding occurred as it has relied on private funds and not the use of government funding to finance its networks.

This letter provides certification under penalty of perjury that the information provided herein is true and correct to the best of my knowledge.

Sincerely,

  
John Ogren  
CEO

## **EXHIBIT C**

### **SPEEDCONNECT SUBSCRIBER LIST**

**SpeedConnect's subscriber list contains over 1800 customers, making it too voluminous of a document to attach to this filing. Therefore, a cross-section has been provided to indicate the existence of such customers throughout SpeedConnect's service area. A full listing of such customers can be made available to Commission staff upon request.**
